that causes the victim
to do something
she does not want to do,
prevents her
from doing something
she does want to do,
or causes her to be afraid.”

What Does Domestic Violence Look Like?

We will refer to the abusers as “he” and the victims as “she” due to the extremely high ratio of women reported as victims compared to men. However, we recognize that men are also victims of domestic violence.

- It usually starts with degrading behavior, insults, put-downs. Verbal abuse escalates into physical violence to keep victim in line and instill fear.

- Abuser blames victim for problems in the marriage, and takes little, if any, responsibility for his own actions.

- Abuser insists on knowing victim’s every move, monitors phone calls, and often isolates her from family and friends.

- Abuser makes victim financially dependent by controlling all finances; makes her a virtual prisoner by doling out money for necessities as they arise.

- Abuser criticizes her appearance, but refuses to give her money for clothing and hair care.

- Abuser convinces the victim she is stupid, worthless, and unable to function without his help.

- Victim walks on eggshells to avoid upsetting abuser, and often protects him by not telling anyone what really goes on in the home.

What is the difference between an occasional spat and domestic violence?

- Domestic violence is a continuous pattern of behavior which can be tracked over a period of time.

- One partner dominates and controls the other through fear, humiliation, or assault.
